# HISTORY

CMcadeiras is located in Rebordosa, Paredes, a region with a strong tradition in the furniture industry. The origins of the company date back to the 40s when Mr. Manuel Campos founded Campos & Sons (now called Ducampus), a high-end furniture company. Given the demand, in August 1990, the partners of Campos & Sons decided to create a new company dedicated exclusively to the manufacture of wooden chairs, and so, CMcadeiras was born.

## ALITIA

Unconventional in its design, the Alitia is a chair that's wider in the back than in the front (as opposed to most chairs) - which results in an original styling.

*original*

*styling*
