## Corporate Purpose

Inspiring people  
through innovative  
and sustainable  
spaces.

## Mission

To be a leading company that responsibly imagines and anticipates, with its customers, high value and innovative surfaces for the architectural and design world.

## Vision

Lead the global surfacing market by offering innovative architectural solutions that provide design, value and inspiration to our customers' lives.

We are Cosentino

# Certifications

Cosentino has an unwavering commitment and respect for the environment and demonstrates this through responsible resource management, guaranteeing a commitment to innovation and continuous improvement of our processes, products, and services on a global scale.

# Collective Commitment

## Cosentino Sustainability

At Cosentino®, we approach sustainability as a collective commitment that stems from the individual involvement of those that are part of the company.

Our continuous improvement efforts involve constant analysis of our entire value chain - from the acquisition of raw materials to the delivery of the final product to consumers.

We are firmly aligned with the United Nations' 2030 Agenda. As a global leader in the manufacturing and distribution of innovative surfaces from our headquarters in Almeria, Spain, we are committed to driving the path towards local and global sustainability.

→ Olive trees in the Cosentino industrial park

→ LED lighting throughout the Cosentino industrial park

→ Photovoltaic installations at Cosentino

## Energy

Energy efficiency and the use of renewable energy sources are two core elements of our strategy to minimize the impact of our activities.

100% of our energy consumption comes from renewable energy sources, and we aspire to reach 30% energy self-consumption in the coming years.

On the other hand, the constant improvement of our processes and machinery allows us to reach a high level of energy efficiency, which translates into an 8% decrease of our electrical consumption in our production processes.

## Water

Since our inception, we have valued the importance and understood the challenges of proper water management.

It has motivated us to implement a sustainable use policy maximizing the efficient use of water resources in the different production processes.

We use cutting-edge technology to achieve 99% recycled water in all our processes in the Cosentino Industrial Park.

In addition, we use 100% of the surplus water to irrigate green areas.

## Materials

We are committed to making the most of the materials we work with throughout the value chain.

In recent years we embarked on an ambitious R&D project called "Circularity" to reuse the materials from which our products are made.

Another action is the innovative HybriQ+ technology that brings about the new generation of Silestone. HybriQ+ incorporates a minimum of 20% recycled materials and is manufactured with 100% renewable electric energy and 99% recycled water.

# Carbon neutrality: Sustainable design

Cosentino Group is deeply committed to sustainable development in the company's growth strategy, prioritizing respect and protection of the environment.

We address aspects related to the efficient use of natural resources, proper waste management, atmospheric emissions, discharges and other potential impacts in order to make sustainable use of natural resources and protect biodiversity and ecosystems.

As a demonstration of our commitment, we have managed to offset the 42,532 tons of CO<sub>2</sub> emissions resulting from one year of Dekton® production, thus obtaining the Zero Carbon Footprint label for the entire product life cycle in 2019 for all Dekton® products.

At Cosentino we are strongly committed to the 2030 Agenda promoted by the United Nations and the Local Action Plan promoted by the Spanish Government.

In addition, the Sunlit Days series by Silestone® is the brand's first collection to achieve the carbon neutral certification.

## We calculate our carbon footprint

It is an external body that verifies the calculation and the results of the carbon footprint that is submitted to the Spanish Ministry for Ecological Transition and Demographic Challenge (MITECO, in Spanish), which is responsible for approving and registering our footprint, becoming part of the 'Spanish registry of carbon footprint, offsetting and carbon dioxide absorption projects' of the Spanish Climate Change Office (OECC, in Spanish), whose results are made public as an exercise in transparency.

This calculation uses energy and/or fuel consumption data, as well as raw material consumption data collected from all **Group subsidiaries** (Centers, Workshops, City Centers, HUBs, HQ, etc.) with a view to offset these emissions.

## We reduce our impact

We are committed to energy efficiency, emissions reduction and sustainable mobility to minimize our impact.

- **Energy efficiency:** it is a priority for Cosentino to reduce energy consumption in the production process and in the general group activity, which is why we have managed to obtain 100% of the electricity we use from renewable sources.
- **Emission reduction:** 2.8 million euros have been invested in the implementation of an energy management and monitoring system for the heat systems, which allows heat from the Dekton® furnaces to be recovered and used in the dryers, thus reducing emissions.
- **Sustainable mobility:** we have recently joined the 'Plan Sumamos Salud + Economía' under which we have a Mobility Policy that helped us to avoid 230 TCO<sub>2</sub> in 2018.

## We offset our emissions

To achieve carbon neutrality in Dekton®, at Cosentino **we offset our emissions over the entire product life cycle** (scopes 1+2+3) by investing in GHG emission reduction projects.

For this purpose, we identify those projects that meet the requirements for responsible offsetting and that, in turn, have a strong social dimension that contribute to the achievement of the **Sustainable Development Goals of the UN's 2030 Agenda**.

The project selected to offset the 42,532 tons of CO<sub>2</sub> emissions, resulting from one year of Dekton® production, has a direct impact on sustainable development by **supporting the local economy, providing training and job opportunities**.

# What is HybriQ+ Technology

HybriQ+ is a pioneering and patent registered technology from Cosentino developed for the manufacturing of the new Silestone®.

A new high-performance blend of premium minerals and recycled materials produced through a sustainable manufacturing process, with 99% recycled water and electric energy from renewable sources.

**HYBRIQ+**

DEKTON®

≡ DEKTON®  
Designed by COSENTINO

## Innovative design.

Dekton® is a sophisticated blend of over 20 minerals extracted from nature. Its production process is the result of years of research, development, and innovation in the manufacturing of glass, state-of-the-art porcelain and quartz surfaces.

Electron microscopy makes it possible to appreciate the reduced porosity of the material, a consequence of the sintering and ultracompaction process exclusive to Dekton®. This reduced porosity and the absence of micro-defects causing stresses or weak points are the distinguishing features of Dekton®.

## Sintered Particle Technology

Dekton® uses an exclusive SPT in its manufacturing, capable of sintering mineral particles, bonding them together and compacting their internal structure. This innovative technological process mimics and accelerates the processes that natural stone undergoes when exposed to high pressures and temperatures for millennia.

Dekton® emulates in a few hours what nature takes millennia to do, thanks to the exclusive SPT technology.

- The furnace has a length of 180 meters.
- Temperatures reach approximately 1250°C.
- Total processing time depends on the thickness of the slab (about 4 hours).

## Safety in facades and cladding

In order to reinforce safety in ventilated facades and interior cladding, there is the possibility of adhering a safety mesh behind the Dekton® slab, specially developed to prevent falls due to breakage. It is a 300 g/m<sup>2</sup> fiberglass mesh adhered to the material with epoxy resin. Safety is one of Cosentino's main concerns.

# Dekton® features

## Dekton® Product features

Dekton® has all the technical specifications required in a high resistance surface to materialize any interior and exterior residential or commercial design project.

### Low water absorption

Dekton®'s water absorption is negligible so it does not undergo any expansion movement due to it.

### Highly resistant to ultraviolet (UV) light

Dekton® is highly resistant to UV light and will not fade or degrade over time in any kind of outdoor application.

### Superior mechanical resistance

Dekton®'s variety of thicknesses allow it to be used in applications where resistance to wind or impact are a project requirement.

### Fireproof material

Dekton® can withstand high temperatures without burning, scorching or cracking. European Standard EN 13501 and ASTM E84 testing classifies Dekton® as a noncombustible material.

### Color durability

Dekton®'s control of pigmentation and decoration in the manufacturing process provides better color consistency from one slab to another, resulting in a long lasting product that will not fade over time.

### Scratch resistant

Dekton® is one of the most scratch resistant surfaces on the market today. It has a rating of seven (7/10) on the Mohs scale for mineral hardness.

### Dimensional stability

Dekton® expansion is minimal so it can be installed with thin joints between panels. These joints will keep their width in all conditions.

### Resistance to freezing and thawing

Dekton®'s resistance to durability tests in freezing and thawing situations and its application in various weather conditions prove its high performance.

### Abrasion resistant

Dekton® is even more resistant to abrasion than granite and porcelain, making it the ideal surface for facades or high-traffic flooring in commercial applications.

### Maximum fire and heat resistance

Dekton® has been successfully installed on facades in areas exposed to high temperatures.

### Easy cleaning and low maintenance

Most graffiti can be removed from Dekton® with standard cleaning products. Maintenance costs are reduced.

### Stain resistant

Dekton® is resistant to stains from a variety of sources so they can easily be removed without altering the surface's finish.

# Dekton® Slim

## DEKTON® SLIM

Designed by COSENTINO

High aesthetic value and performance in vertical cladding and furnishings.

### Minimum Thickness of 4mm → Large Format & Performance

### 01 → Large format and minimum number of joints

Its large format of up to 126" x 56" covers large surfaces, minimizing the number of joints and therefore, dirt.

### 03 → Design without limits

Dekton® Slim is very easy to work with and can be cut to size. It adapts to all spaces.

### 02 → Easy Installation

Having such a light format, but with so many possibilities, simplifies everything. Its thin thickness allows for quick cutting and on-site adjustments with ceramic tile tools.

### 04 → Maximum resistance to humidity

Dekton® Slim is the ideal ultra moisture and stain resistant coating for bathrooms. A high performance product that requires no more maintenance than a simple damp cloth.

# Dekton® Formats

Adaptable and  
versatile.  
In any space.

Dekton® offers a variety of standard sizes, custom sizes and thicknesses to meet the functional and creative needs of the designer in any interior or exterior project, no matter how complex.

## Large format

Optimma Format → 260 x 100 cm  
Large format Slab → 320 x 144 cm

- 3 cm

# Dekton® Finishes

Dekton® comes in different finishes so that the only limit is the imagination: from the ultra-glossy finish, to matte or velvet textured options.

Different Sensations.  
Richness of Shades.

## X-Gloss

A luminous and dazzling finish achieved by mechanical polishing, without the need for enamels or other materials.

## Matte

The matte texture pursues a natural, shine-free appearance, ideal for achieving a harmonious and timeless finish. Most Dekton® products are manufactured with this finish.

## Velvet

The materials chosen in Velvet create a feeling of warmth and comfort. This texture is perfect in classic colors with veins.

## Matte or Textured Velvet

Matte or Textured Velvet textures combine the warmth of velvet with the roughness of a textured, imperfect material. They are ideal for emulating the finish of natural stone.

# Optimma

## New optimized Dekton® format.

The ultimate interior cladding solution.

The Dekton® slab has been optimized with its most common applications in mind to create a new format with improved cost, design, installation and handling. Introducing our first Optimma family format specifically for cladding:

Optimma format :  
260 x 100 x 0,4 cm.

### 260x 100 cm In 4 mm thickness

The slabs are created in 4mm thickness, which gives it a lightness that allows easy handling, if needed, it can be easily cut to adapt the product to all spaces.

### Cost Efficiency

The sizes are optimized to the most common cladding standards, allowing us to avoid waste, which in turn reduces price.

### Design with Purpose

The slab has been created to take advantage of its total height, which makes it much easier to cut it for cladding.

### Easy to Install

The product is smaller and lighter, which makes it easier to use, transport and handle. Cutting can be done with simple tools. The edges are already bevelled and the piece is always meshed.

### Design Match

The design has been conceived to place the boards vertically to create a continuous design.

# Stone Dekoded

## New Pietra Kode Collection

The Italian stones of yesteryear recoded by Dekton for contemporary architecture and design through three series.

With Pietra Kode, designer and architect Daniel Germani reinterprets for Dekton the atemporal beauty of three classic stones: Vicenza, Travertine, and Ceppo. Elegant designs that transport us to a different era, rich in shades, colors, and textures that create a sensory experience beyond what the eye can see.

Pietra Kode evolves the concept of firmness, transforming it into a high-performance surface thanks to Dekton technology, an ultracompact stone that does not degrade. A completely inorganic material with insuperable hardness and resistance made to stand against the harshest conditions.

Its utility is maximized as it can be used in any application: from facades to flooring, cladding, and kitchen and bathroom countertops. Both indoor and outdoor.

DEKTON  
**PIETRA KODE**  
Designed by Daniel Germani

## Vicenza Kode

### Recodified {Vicenza} Avant-Garde

Dekton reinterprets the code of classic Vicenza stone, reimagining the material that gave life to villas and palaces seen in the Cinquecento by architect Andrea Palladio, an advocate for the principles of beauty, resistance, and utility set forth by Vitruvio.

## Travertino Kode

### Decoded [Travertino] Elegance

Travertino Kode recodified the stone that brought to Rome a new technological vision of the material that made classic art shine and inspired Renaissance architecture. Because of Dekton's exclusive ultracompaction process, we have a stone that never loses its beauty or properties.

## Ceppo Kode

### New code <Ceppo> Character

Ceppo Di Gré's code wrote the history of architecture in Milan, and today, Dekton rewrites and reinterprets its beauty and character to design spaces that inspire and connect us to nature.

## VK01 Nebbia

A creamy white fine-grained base splashed with warm taupe, this versatile color is ideal for facades, flooring, and any interior or exterior cladding project. It reinterprets the texture of Grigio Alpi, a type of Vicenza stone with macrofossils that has been quarried in Italy since Roman times. Its design makes it especially suited for applications that require continuity in design and edges.

### VK02 Avorio

A light beige tone with an extremely natural finish, VK02 Avorio draws inspiration from the eponymous Avorio stone, a material with Italian origins characterized by its fossilized shells. Its design makes it especially suited for applications that require continuity in design and edges.

### VK03 Grigio

A dance of gray shades with warm accents, it perfectly combines with cream and taupe tones as well as woods. VK03 Grigio is inspired by Grigio Alpi stone, a type of Vicenza with macrofossils made popular by Renaissance architect Andrea Palladio, who used it in villas and palaces in the region of Vicenza. Its design makes it especially suited for applications that require continuity in design and edges.

## VK04 Grafite

Its dark base, which intermingles black and gray tones and presents cloud-shaped whitish and reddish patches reinterprets the texture of dark, fine-grained limestone. Its design makes it especially suited for applications that require continuity in design and edges.

### TK05 Sabbia

The veins reinterpret Italian Travertine run through each piece in perfect chaos, filling it with nuances. This attractive chromatic recodification of natural stone maximizes the strength and design of the original, dotting incomparable beauty and resistance, perfect for rustic or natural environments.

### TK06 Marmorio

It is the quintessential Roman stone. Its porous striped structure gives an elegant, bright and lightweight look to any design and takes its inspiration from Travertino Navona, a natural stone quarried near Tivoli, east of Rome.

## GK07 Ceppo

The characteristic multiform structure and gray/blue tones of Italian Ceppo di Gré inspire this unique color. Ideal for both interior and exterior spaces, its atemporal design makes it a perfect choice for classic or modern designs.

The beauty of white

# New SilverKoast Collection

The waves breaking on the shores of Malibu, the reflection of the sunrise on the waters of its lagoon or the salty sand dunes of the Santa Monica coast.

The serene and immense whites of the Pacific inspire Silverkoast, Dekton®'s new series.

A journey along California's most iconic coastline combined with the absolute beauty of two emblematic marbles: Carrara and Ivory White.

The two new predominantly white designs are available in both polished and matte finishes. A total of four finishes and two designs, ideal for bringing light to indoor and outdoor kitchens, wall cladding, bathrooms, furniture, flooring, and more. Elegant and harmonious with unparalleled performance.

Marina (Velvet)

### Laguna & Malibu

Laguna (velvet) and Malibu (polished) are inspired by the natural treasures of the Santa Monica shores. The white sand of Zuma Beach, the mesmerizing reflections of the sun on the calm waters of Malibu Lagoon and the waves breaking on the shores of Carbon and Topanga are rendered in subtle and delicate veins on an ivory white background.

### Marina & Salina

Marina (velvet) and Salina (polished) are inspired by the whimsical salt patterns that low tide leaves on the sand and rocks. These delicate white ridges, common on the beaches of El Matador, El Sol and Punto Cero, are materialized in an asymmetrical pattern of gray veins on a white base that reinterprets the classic elegance of Carrara marble.

Full life-cycle Carbon Neutral Surface

# New Onirika Collection

Onirika represents a journey. A detour in our dreams where boundaries between dreams and reality vanish.

A collection that unites the poetic and unique beauty of stones harnessed by Dekton® technology, as those dreams where we observe and vaguely feel in control but only the deepest part of our mind truly understands. The collection is named in honor of the lavish inspiration of the two worlds conveyed in marbled colors to captivate our eyes and bring to any space a feeling we understand but cannot explain.

Imagine sitting in a world of beauty, that blurs the division between reality and dreams.

Nina Magon Studio, is a luxury design studio where architecture, interior design, and construction blend seamlessly to deliver the world's most exclusive residences, culinary, hotel and spa and special commission experiences. The forward - thinking ethos of the brand is coupled with exceptional service, custom ideations and experiences for each of our clients, as we believe luxury is not just elemental but also in the minutiae of who we are as a brand. Uncompromisingly high standards are held and delivered whilst creating exquisitely luxurious spaces, through experiential, one of a kind designs, that we tailor to our clients' needs, wants and wildest imagination.

### Limbo & Neural

Fine and pale veins crisscross the marbled pattern creating a fascinating neural network that moves in the same direction, teleporting us into a white dream.

Its perfection is so subtle, yet so present, that it creates a notch in our memory. It does so when placed in a space where it unfolds the perfect white harmony that creates a pristine structured arrangement with wooden, metal or shiny elements

### Awake & Reverie

Our awake dream unifies consciousness and fantasy, delivering Dekton's unique take on a Bionde Paonazzo. An ode to luxury and elegance, to control and nature. A design for daydreaming.

A re-interpretation of the iconic attributes of the precious Paonazzo stone. Thick veins of light grays and creams, with an exquisite oxid terracotta and subtle inky blues. The perfect centerpiece blends with white, nude tones, light woods and golds of any shade.

## Trance

Trance invites you to abandon control of your thoughts, to let yourself be carried away by the beauty and liveliness of the veins that carry energy and bring life to spaces.

Warm fine streaks move between oxides and fade to reddish gold. This color is the perfect complement for reddish oak woods and darker walnut tones. The hint of blue in the stone accompanied with its warm golds makes it the perfect fit for any environment.

## Somnia

The eye gets lost and dazed while chasing these streaks and entering an altered state of mind. Its effect creates a sober and delightful space that invites golden, wooden, metallic and copper elements to shine in it, while embracing everything in an immersive calmness.

Captivating details of warm oxid browns and whites merge under a grid of thin lines creating a sober texture. Perfectly paired with warm dark woods frosted glass and textured metal surfaces as copper.

Morpheus (Velvet)

## Lucid & Morpheus

Lucid and Morpheus feature various shades, reflections, and glints of color. This illuminative perception of colors goes beautifully with wooden finishes and frosted glass paired with gray and gold tones.

A dream of Calacatta in full consciousness, takes control of the swirls, veins and patterns that dance across the design.

It results in a paradox of wildness and control that blends in with soft warm tones and materials bringing a feeling of harmonic dynamism to the room, especially when book matched, reminiscent of Rorschach.

Lucid is clear and sharp, taking over our thoughts and opening the door to Morpheus, Nina Magon's matte dream.

Lucid (Polished)

### Vigil & Daze

Vigil and Daze are a chess game with circadian rhythms. A dance between being awake and asleep. A feeling of intoxication surprised by the energy of an adrenaline rush.

Both designs recreate a strong Calacatta structure with thick veins in gradients of light and dark grays matched with a subtle touch of gold. A classic pattern easy to combine with warm and cold hues, wood metal, and clean concrete.

# Silestone®

by Cosentino

## The Ultimate Mineral HybriQ Surface

Silestone® is a hybrid surface of premium minerals, quartz, and recycled materials to dress interior spaces with color and texture.

### Silestone® advantages.

Silestone® is extremely durable in kitchens, bathrooms and other spaces exposed to constant activity and use. In addition, it offers an unlimited range of colors and textures.

Silestone® has many advantages, including minimal maintenance, high resistance to stains and scratches, and a low fluid absorption rate. This resistance to fluids and its minimal joints make Silestone® the ideal solution for places where liquids are present. Silestone® is resistant and allows for prolonged enjoyment to last a lifetime.

The properties of Silestone® are the result of constant years of innovation that guarantee maximum hygiene and safety.

### Acid and Scratch Resistant

Silestone® has a high level of scratch and impact resistance, as well as resistance to external aggressors such as acids common in daily kitchen use.

### Impact Resistant

The high impact resistance of Silestone® allows the handling of hard objects (pots, pans, trays, etc.) with total peace of mind.

### Stain Resistance

Silestone® is a non-porous surface that is highly resistant to stains from coffee, wine, lemon juice, oil, vinegar, makeup and many other everyday products.

25 year transferable warranty

# Silestone® Formats

Infinite possibilities for indoor applications.

Silestone® is available in slabs up to 128" x 63" and in 24" x 12", 24" x 16", 24" x 24", 16" x 16" and 12" x 12" tiles. They are marketed in thicknesses of 1.2, 2 and 3 cm. In addition, different pieces can be combined to simulate thicker edges.

## Large format

Jumbo Slab → 128" x 63"  
Standard Slab → 120" x 55"

## Jumbo Slabs

Cosentino® offers Silestone slabs in Jumbo format ( 128" x 63" max.). This format allows for the creation of large surfaces with minimal jointing, design versatility, and better hygiene. This way, the slabs' use is optimized and waste minimized.

## Floor formats

- 24" x 12"
- 24" x 16"
- 24" x 24"
- 16" x 16"
- 12" x 12"
- Custom Size

## Thicknesses

- 1.2 cm
- 2 cm
- 3 cm
- Custom thicknesses adding different pieces

# Silestone® Finishes

Surface sensory  
perception.

In order to adapt to all styles, Silestone® offers different finishes for any of its applications. Polished, Suede or Volcano are three possibilities that make the imagination soar and bring to life countertops, floors or walls with the desired texture.

## Polished

Extreme shine, a smooth surface to the touch and a uniform, intense and consistent color.

## Suede

Extra matte finish, offers a flat, non-rugged surface, which conveys a unique experience to the touch for its beauty and fineness.

## Volcano

Rustic texture, rough to the touch, but soft at the same time, an attractive and pleasant to the touch surface

# Mediterranean Color Shades

## New Sunlit Days Collection

Sunlit Days. An immersive and sensory journey through light and color that takes us back to our roots and transports us to a more natural, more sustainable and more compassionate future.

Presenting the first Silestone® Carbon Neutral collection, a commitment to sustainability where we reduce and offset the emissions from the manufacturing process with reforestation projects. This environmental commitment translates into a collaborative program for the preservation of the seabed and our environment.

Sunlit Days is inspired by evocative Mediterranean tones, and a unique lifestyle.

A new breath. A new spirit. A new Silestone®.

WITH  
**HYBRIQ+**  
TECHNOLOGY®

  
NEUTRAL  
A CARBON  
NEUTRAL SERIES

## Faro White

White is the color of the Mediterranean. The one that draws the waves on its shore. The one that reflects its light and evokes its warmth. White transmits serenity. It is the color of simplicity, and yet, the most complex and versatile of all colors. It's texture is surprisingly silky to touch, every time.

Faro White is inspired by the lighthouses that draw the way for ships, filling any space with light.

Faro White is the sparkle that brings us closer to what really matters: our people.

Faro White pairs well with natural fibres and aged woods, raffia and metals with matte finishes.

It is a good match for decorative elements of pure and curved lines, giving rise to spaces stripped of ornamentation which convey calmness.

## Cincel Grey

Some people say that gray is just gray. Those people will speak of wood as just that, wood. They will not speak of ebony, almost jet, nor of crimson mahogany. Because wood is not just wood, nor is gray just gray.

Cincel Gray is a fine-grained gray, silky and full of nuances. A gray that when bathed in light unfolds its melody of contrasts between matte, sheen and reminiscent of other colors. It is a gray for those who know how to look and feel.

Its touch, like the rest of the colors in the series, is a sensory experience even for the hands most accustomed to delighting in the textures of each wood.

Cincel Grey is a neutral, adaptable gray that balances easily between warm and cool tones. Therefore it complements polished metals and rustic finishes and combines very well with accents of earthy colors, and resistant fibres such as plush velvet, felt and denim.

It is a perfect color for everyday spaces paired with textiles and elements that pay tribute to minimalism.

## Cala Blue

The first time you see the sea and its breeze embraces you. The feeling of floating on the edge of immensity. Away from worries, letting the sun and water bathe your skin. Savor the salt that envelops your body, the sound of the waves breaking on the shore, see the infinite horizon. A game for the five senses. A unique touch that caresses the skin just like the sea.

That is Cala Blue. A deep, modern blue that simulates the balance between the depth and the surface of the sea when interacting with light. A mature color that vibrates with the rest of the elements which complement the space it inhabits. Let yourself be rocked by the Mediterranean.

The versatility of Cala Blue allows combinations with dark woods such as walnut and ash, as well as with dark metals to give a more classic look. Paired with nude colors and woods, it is perfect for rustic spaces.

## Posidonia Green

Under the Mediterranean, time stands still. Everything is slowness and harmony. The posidonia meadows sway, dancing a hypnotizing dance of incredible greens. Greens that captivate the eye and that both literally and metaphorically, fill the seabed with life.

This is Posidonia Green. A green that asks for colors around it and that transports this beauty so far inaccessible to our spaces. A green that infuses vitality, joy and nature on all four sides. A green that at every moment breathes a different melody of brightness and tones, just like the marine treasure that gives it its name.

Posidonia Green is the perfect match for woods such as bamboo, soft textures, fibres such as cotton or Lyocell, and twill-like structures which help to create these spaces.

Marbling, rustic, natural elements and monochromatic geometries are perfect options to complement this luminous green.

## Arcilla Red

There is a land that breathes fire, that seems to flow blood, a land that is pure life. A land of clay, of an infinite red that displays intoxicating tones and fills you with warmth, life and joy.

This is Arcilla Red. A red that makes you fall in love. An earthy red that tastes like wine and smells like petrichor. A red that brings the purest essence of our origins to our home. A burst of color, an accent, a beating heart. A red that turns the kitchen into a living space that longs to be lived in. A color that can be experienced with all five senses. A unique texture that can be enjoyed with both touch and sight. Arcilla Red comes to endow any space with this passion, this closeness to the earth, with pure life.

Arcilla Red pairs nicely with reddish woods such as oak or cedar as well as grayer woods like anthracite. Gun metal metals and handmade fabrics are perfect companions to create rustic and bohemian spaces.

# Beauty Beyond Natural

# New Ethereal Collection

Introducing the Ethereal collection. An unparalleled leap in design, sustainability and innovation developed with HybriQ+® technology, which takes the concept of marble inspired colors to a new dimension.

Ethereal, an evolution of our acclaimed Eternal Collection, interprets the dreamlike beauty of the sky by drawing fine veins of deep hues on white canvases. The result: the most cutting-edge and avant-garde Silestone® series, a redefinition of veining that creates a new category in terms of performance and design.

## Ethereal Dusk

Ethereal Dusk is that unique sunrise, that unparalleled feeling of being the first person to see the light of day, where peace is seen on the horizon in the last moments of darkness. The subtle bluish tone of its veining gives it a modern touch that, together with its avant-garde linear pattern, makes Ethereal Dusk one of the most urban and contemporary designs in the collection.

Reddish wood and metals reminiscent of rust, such as gunmetal, or old-cut metals, such as bronze and copper, also go well with this color.

## Ethereal Haze

Ethereal Haze is a soft color with a strong character, in which the interplay of patterns merges with the deep, neutral background color. Ethereal Haze is a sea of clouds that offers the sensation of being on the edge of immensity. A veil that separates us from the moment in which we live to transport us to imaginary worlds through the wind that moves the clouds over the mountains, creating the illusion of a calm and fluffy sea.

Its combination of cool and warm makes it perfect for spaces with a total wood or cement look. It also works well with coppery metals, gold colors, limestone and more rustic fabrics.

## Ethereal Noctis

Ethereal Noctis draws on the designs of the Eternal collection with a new, renewed and conservative approach. Black features add contrast and elegance to the color range. The gray details and the short-veined background provide depth. Inspired by the darkness after sunset, Ethereal Noctis hides and shelters us in the depths of the night, making us feel life with a strange halo of unreality.

This color elevates the sophistication of the interior design, in combination with brass lamps, stained wood flooring and white and gray furniture for a more industrial look. A versatile color suitable for residential use or for large projects.

## Ethereal Glow

Our renewed version of a golden classic like Calacatta Gold, but with a bolder, more modern structure. The elegant gold and gray veining of Ethereal Glow blends into a tinged white foundation to add depth to the design. Inspired by the sky, which gives a spectacular display of yellow, red, orange, gray, while the clouds lose their shyness and appear blazing and confident.

Ethereal Glow is inspired by the sunset. A rhapsody of colors in the sky with an igneous glow from which you cannot look away.

HybriQ: Technology applied to the Silestone portfolio that implies a significant reduction in the content of crystalline silica.

**Q50** The figure next to the Q corresponds to the maximum percentage of content of crystalline silica (10%, 40% or 50%).

**Q<sup>+</sup>50** The Q accompanied with the sign “+” indicates it has a minimum of 20% of recycled material in its formula.

# Sensa

by Cosentino®

## Protected Natural Stone

Sensa by Cosentino® is premium maintenance-free natural stone brought to you by Cosentino, a world leader in the natural stone industry.

Sensa by Cosentino® is treated with a revolutionary stain protection treatment called SenGuard, and comes with a 15-year warranty.

SENSA  
**15**  
YEARS  
WARRANTY

SENSA  
by COSENTINO®

### Applications

Sensa kitchen countertops.  
Natural, stain-resistant beauty.

Enjoy the design, hardness and resistance of natural stone without fear of stains. Sensa by Cosentino® quartzites and granites feature a revolutionary stain-resistant treatment that protects them for the life cycle of your countertops.

## Sensa by Cosentino® Treatment

The long-lasting, chemically-integrating technology allows the material to breathe. This technology enhances its powerful properties.

The process alters the surface tension of the stone causing the material itself to prevent liquids such as water, coffee or oil from penetrating.

**SENSA**  
by COSENTINO®

TRADITIONAL

## Textures

Unique patterns for  
irreplicable surfaces.

The colors and textures of Sensa by Cosentino® have the patient and whimsical design of nature. Each of the seven available shades has a texture that produces different effects and sensations: suede, polished or caresse.

# Scalea®

by Cosentino

## From the Earth

We have selected the most premium natural stones from the best producer of all time: Earth.

### Advantages Scalea®

Scalea® is Cosentino's collection made up of natural stones, chosen through an exhaustive selection process. This collection of natural stones is inspired by the origins of the Cosentino Group, as a brand that has worked with noble materials such as marble, granite, limestones and travertines. Its extraordinary resistance and durability, together with whimsical and unrepeatable designs, make Natural Stone a safe bet for the professional.

- More than 100 materials in the portfolio.
- Technical sheets and Declaration of Performance upon request.
- Stocks locally in our own Centers.

→ Scalea® Blanco Macael. "Patio de Los Leones". Alhambra of Granada.

→ 92

## 4.1 LIVING AREA

Redesign the living room and turn it into an open, functional, comfortable space integrated with the rest of the house.

→ 98

## 4.2 BATHROOMS

Reinvent the bathroom space to create a world of sensations through a unique and integrated design concept.

→ 114

## 4.3 OUTDOOR

Revolutionize the outdoor space so that the porch, terrace or garden become a continuation of the house.

→ 118

## 4.4 KITCHENS

Redefine the function of the kitchen in the home and transform it into the heart of the home.

Innovative surfaces that bring the designer's vision to life throughout the home, in both indoor and outdoor spaces

→ 126

## 4.5 FURNITURE

Rediscover the exclusivity of custom-designed furniture for every space.

# Spaces

# Living rooms

The living room is transformed into a personal and timeless space with Cosentino surfaces; an expression of sophistication and functionality.

# Live your space

## Rediscover your home's living space

An integrated solution with maximum versatility and functionality.

Endless personalization possibilities.

## Limitless customization

Designing a living room with high aesthetic value requires versatile surfaces in a variety of colors, textures, and unique chromatic pantones, such as Dekton and Silestone, which will cover floors, furnitures, cladding, and more, to create an integrated and differential interior design experience.

## Perfect for high-traffic areas

Dekton® is an innovative surface with a high level of resistance, capable of withstanding high temperatures, ultraviolet rays and any scratches. It remains unalterable to wear and abrasion, as a result of the high daily traffic in spaces such as living rooms.

## Easy installation

Dekton® is offered in a Slim format which is light, easy to cut, and adaptable to every space. Its thin thickness of 4mm allows adjustments to be made during installation, using tools for ceramic tiles.

## Comprehensive solutions

The same material for flooring, cladding and furniture creates visual continuity and high aesthetic impact, unifying spaces and increasing their functionality.

## New Dekton® Optimma Format

Dekton® has been optimized for interior cladding. The Optimma format (2600x1000x4 mm) allows for cost efficiencies, more design possibilities and easy installation and manipulation. The results: impactful cladding and integrated spaces.

## Large format, minimal joints

Dekton® Slim's large format up to 3200 x 1440 mm and thickness of 4 mm allows you to cover large surfaces creating a continuous and homogeneous aesthetic for cladding and furniture. This size reduces the number of joints, easing cleaning and maintenance.

# Cosentino Bathrooms

Cosentino® helps you  
rediscover your  
bathroom space through  
a unique and integrated  
design concept.

# Bathroom Spaces

Reimagine the most personal space in the home. Create a unique experience in which the most beautiful and functional Cosentino® surfaces create unique, warm, and exclusive spaces.

From wall and floor claddings in different yet perfectly balanced formats, colors and textures, to attractive vanities and shower trays, carefully designed with great attention to detail and simplicity.

Solutions of great aesthetic and functional value to suit every requirement and style of bathroom, which redefine the way in which we experience such a personal space and feeling of well-being.

## Large format

Large format, minimal joints. Tailor-made floors and wall cladding.

Bathrooms are exposed to constant activity. Using a high-quality surface for floors and cladding reduces joints and guarantees hygiene and cleanliness. The strategically placed slabs in XXL make the room look bigger, creating the sensation of a larger bathroom.

## Shower Trays

Shower trays with Dekton® Grip+ and Silestone®: exclusive and integrated designs in the bathroom with limitless customization possibilities.

Cosentino® offers an extensive collection of shower trays in the material the architect or designer chooses and adaptable to any space. It is an interesting alternative to the traditional shower that simplifies installation and assembly.

## Sinks

Sinks and vanity tops with great versatility that adapt to any space. Sophisticated designs with maximum beauty and durability.

Silestone® sinks are built with a unique and innovative design able to live up to the most demanding creative proposals. From sinks that integrate into the vanity top, to overmount options, double bowls...everything is possible with tailor-made fabrication.

## Optimma Format

Dekton® Optimma Format. Optimized for interior bathroom cladding: taking full advantage of the space, easy installation, and design continuity in a vertical format.

The Optimma slab format is available in 260 x 100 cm and 0.4 cm thicknesses, and is able to meet any vertical cladding need to create a continuous design, taking advantage of the full height with easy installation and minimum waste.

## Total Integration

Total aesthetic integration and visual continuity. The same material for your entire bathroom: floor, cladding, shower tray, and sink.

A single surface applied to every component of the bathroom allows for complete esthetic homogeneity, creating harmony, balance, and amplitude.

## Colors and textures

New collections of innovative, on-trend colors and textures, to create bathroom spaces full of originality and impact.

Innovative Silestone® and Dekton® surfaces possess a wide variety of solid and veined colors, unique chromatic pantones, and sensory textures to rediscover bathroom spaces.

## Sinks

Full array of products.

Sinks and countertops designed to adapt to any space.

### Armony

The evolution of tradition makes this sink a key piece, bringing harmony and definition.

Available in a wide variety of colors.

Check available colors at [cosentino.com](https://www.cosentino.com)

outdoor spaces to  
include facades, porches,  
and terraces that blend  
in with your home.

# Exterior Spaces

## Customization without limits

Open spaces with freedom for inspiring, designing with a unique purpose: personalizing your outdoor spaces.

## Easy installation

Dekton® is very lightweight, easy-to-cut and adaptable format.

## High transit resistance

It remains unalterable faced with daily erosion and abrasion in outdoors spaces, used in terraces, stairs and pool surroundings.

## Dekton® Outdoor Countertops

Dekton® outdoor countertops are is resistant and durable. Innovative surfaces turn into functional and beautiful countertops.

# Cosentino Kitchens

Reinventing the  
kitchen to make it  
the heart of the home.

# Kitchen Spaces

It's been a long time since the kitchen was a forgotten room in the darkest part of the house. The kitchen is now a key space that can integrate with the living-dining room and share the same design.

## Integration within the space

The kitchen as a living space which connects to the rest of the house. Total integration of the countertop with the living room cladding or floor.

## Kitchen Countertop and Island

Thousands of households all over the world have trusted Cosentino to provide them with a kitchen that is not only functional and beautiful, but also plays a key role in the daily lives of their families. We offer a wide range of colors and textures, so you're sure to find your perfect countertop.

## Kitchen Flooring and Cladding

In this so-called "reconversion" process, the island plays a major role, as it serves as a connecting element between the two environments as well as a meeting place in the home. In this project, the interior designer built the entire design around the island.

## Island in a classic material.

Although this kitchen has a distinctly modern look, the designer has opted for a classic material for the countertop: Silestone® Calacatta Gold in a polished finish. The use of a 5 cm strip and the diagonal cut on the front side bring modernity and style to a material reminiscent of ancient marble.

 Radius between bottom and sides 0.3 cm

# Furniture

Surfaces integrated with unique  
and timeless furniture design.

## Dekton<sup>®</sup>, The skin of the furniture

It's on-trend to use the same cladding on the kitchen or bathroom countertop to clad drawers and wardrobes. This allows you to achieve continuous and clean surfaces where joints disappear, creating a monolithic effect.

This decor trend is only possible with the technological evolution of materials. 8 mm and 12 mm thicknesses are ideal for tables and coffee tables. Dekton Slim 4mm thickness allows kitchen and bathroom furniture cladding, and also answers the creative restlessness of the designer: table tops for the interior and exterior completely personalized and exclusive.

## Furniture

Unprecedented  
durability and design.

Cosentino® surfaces  
redefine furniture thanks  
to their versatility,  
durability, and beauty.

→ Kitchen furniture cladding, Dekton® Slim Opera

Dekton® Slim, 4 mm thickness makes it an incredibly easy material to work with. Its light weight and properties make it the ideal solution to clad all types of furniture and adapt to any aesthetic proposal: in white and gold, in black and chrome...

Dekton® Slim has all the advantages and properties of Dekton, including high resistance to scratches and stains.

### Ideal for cladding closet doors and kitchens

Dekton® Slim Zenith and Dekton® Slim Opera were the two tones chosen to hide these drawers under the stairs and on kitchen cabinetry. The result is a camouflaged surface of this practical storage solution, without compromising the aesthetic of the space.

→ Kitchen furniture cladding, Dekton® Slim Kreta

## Cabinets integrated into the island

Dekton® Slim is the perfect solution to clad drawers in the kitchen island, achieving a monolithic effect.

For this industrial project, the designer chose Dekton Trilium: a finish inspired by volcanic rock with a touch of oxidation, which adds great character to the space.

Once again, Slim's 4 mm thickness allows the creation of an island totally integrated with drawers.

→ Kitchen furniture cladding, Dekton® Slim Trilium

→ Table top, Dekton® Laos

→ Table top, Dekton® Laos

→ Table top, Dekton® Trilium

→ Table top, Silestone® Eternal Statuario

## Ideal for work spaces

The properties of Dekton® and Silestone® make these materials the perfect choice for work spaces. With their endless possibilities in terms of finishes and designs, they add a deco touch to these spaces and create attractive and functional tables suitable to work from home.
