Our popular Mingle series is characterised by its contemporary design, durable materiality and elegant finishes. Curate your perfect table by pairing your chosen table top with a set of table legs. The table tops can be paired with wooden legs for a classic, seamless expression or metal legs for a modern, high-contrast look. Please note that the table legs are sold separately.

### Catena Modular Sofa

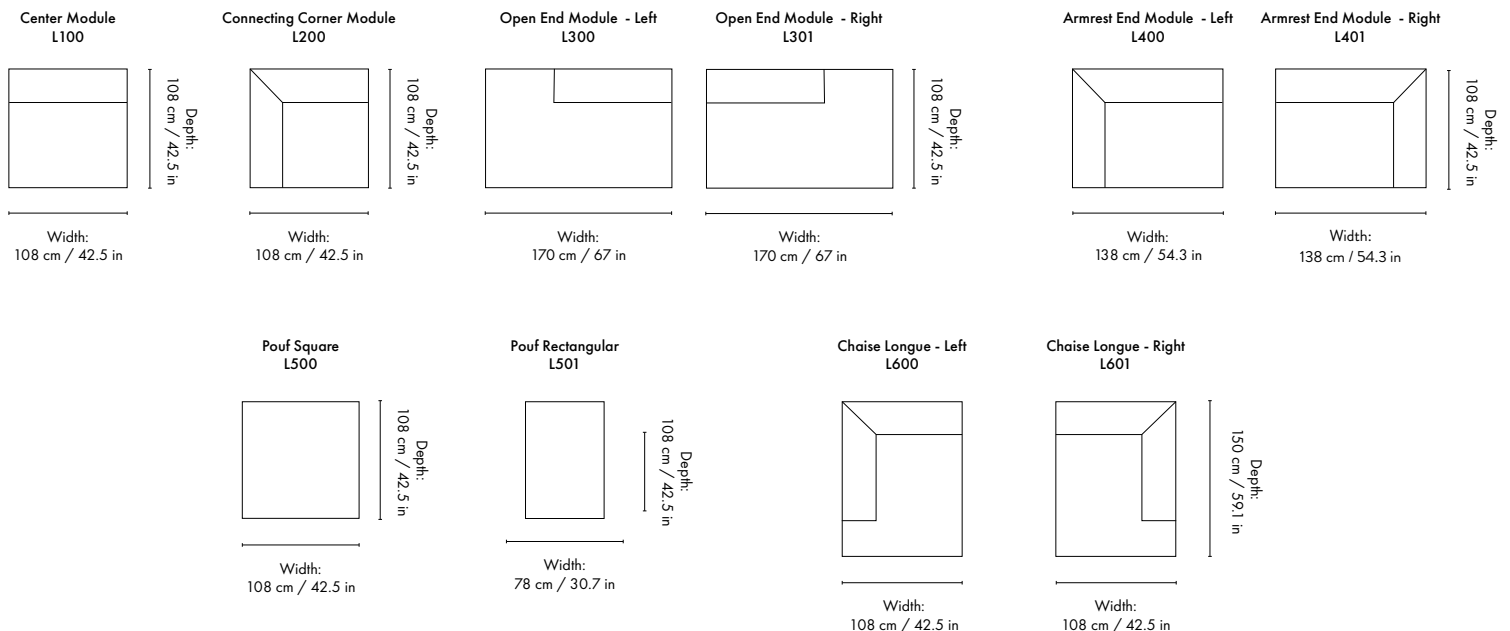

The embracing, beanbag-inspired shape of our low-slung Catena sofa is generously dimensioned for all-out relaxation and cosiness: we call it low living. Distinguished by soft curves and top-stitched seams, the homely, module-based designs are made with innovative microcellular foam that ensures maximum comfort as well as durability. The series comprises twenty individual modules that can be combined in multiple ways to create the desired expression.

Designed with the needs of the modern consumer in mind, the sofa now features a convenient, removeable cover, which can be easily removed for cleaning. Discrete Velcro fastenings underneath the sofa hold the cover neatly in place. Additionally, the inner structure of the Catena sofa is constructed with FSC™ certified wood.

### Dase Modular Sofa

The Dase Sofa is a modular system designed with comfort and versatility in mind. This sofa offers enough space for resting, lounging, conversing and cuddling, making it ideal for both formal and informal settings. The sofa's design is highlighted by an upholstered backrest that gracefully follows the sofa's contours, accentuating its contemporary silhouette. Choose between matching upholstered legs for a cohesive look or dark-stained wood legs for a more subtle elegance. Both leg styles are included when purchasing a sofa.

With a commitment to responsible production, the wooden structure of the Dase Sofa is FSC™ certified. As a part of our Made to Order customisation concept, the upholstery for this item can be selected from a range of high-quality fabrics in different colours and patterns to create your custom piece of furniture.

# A Better Tomorrow

At ferm LIVING, we work for a better tomorrow.

Through nine 2030 Commitments in our Responsibility Strategy under the categories Our Planet, Our Society and Our Community, we take a holistic and proactive approach to responsibility across our entire business and are dedicated to contributing positively to a more sustainable future.

Additionally, we are committed to transparency and share our progress along the way. As the world around us evolves, so do our goals towards a more sustainable future. The pursuit of responsibility extends beyond our company; it is a shared global agenda. By fostering partnerships, contributing to the conversation, leveraging insights and inspiring change, we work towards a better tomorrow.

## Certifications and Testing

We are deeply committed to environmental and social responsibility in all aspects of our business and work with certifications and testing to ensure safe and fair working conditions in our supply chain and the responsible production of high-quality products.

To that end, we have created an internal framework entitled 'Responsible suppliers.' As engaged members of Amfori, we ensure our key suppliers undergo BSCI audits. To be classified a responsible supplier, ours must adhere to initiatives and certifications like BSCI, SA 8000, FSC and GOTS, reflecting their dedication to aligning with our mission of promoting responsible practices and ensuring stringent criteria for human rights and fair working conditions are met. We aim for 60% of our suppliers to be classified as such by the end of 2024, building on our 54.7% achievement in 2023.

Our products undergo risk assessment and rigorous testing in accredited laboratories, and we comply with applicable national and international regulations and standards such as REACH for environmental and health requirements.

 **RESPONSIBLE.** The RESPONSIBLE tag denotes that a product is either FSC™, GOTS- or OSC 100-/Organic blended-certified or produced in a recycled material, such as recycled glass, recycled aluminium, recycled cotton, recycled paper pulp, recycled ceramic or recycled PET yarns spun from post-consumer plastic. Materials such as brown cotton, nettle and cotton mâché are included due to their lower environmental footprint compared to more conventional counterparts. We are consistently working on integrating more responsible materials and methods into our future designs.

Our current initiatives and certifications:

 **GOTS**, the Global Organic Textile Standard. Recognised as the world's leading processing standard for textiles made from organic fibres. It defines high-level environmental and social criteria along the entire organic textiles supply chain.

 **OCS**, the Organic Content Standard. Products certified to the OCS contain organically grown content/material that has been independently verified at each stage of the supply chain, from source to final product.

 **FSC™**, The Forest Stewardship Council™. An international, non-profit certification scheme for wood and paper. In FSC forestry, animals and plant life are protected and no more wood is felled than the forest can reproduce, either through natural regeneration or replanting. At the same time, the FSC ensures that workers' rights throughout the certified supply chain are respected. Look for our FSC™ certified products on our website.

 **NORDIC SWAN ECOLABEL.** A Nordic Swan Ecolabel candle is a candle meeting specific criteria for environmental performance as well as health aspects, quality and safety.

 **BSCI**, the Business Social Compliance Initiative. An industry-driven initiative by Amfori, which aims to monitor and assess workplace standards across global supply chains. An Amfori BSCI audit helps us to ensure that suppliers treat their workers legally and ethically.

 **UN Global Compact.** We are engaged participants in the UN Global Compact and our Code of Conduct aligns with their Ten Principles. This code establishes the ethical framework for our business and is endorsed by all our partners and suppliers. Its principles aim to safeguard the health and safety of workers during production, fostering an ethical and equitable partnership for all stakeholders. Our Code of Conduct is available at [fermliving.com](http://fermliving.com)

From end 2024, ferm LIVING expects to add the following certification:

**GRS**, the Global Recycling Standard. Promoting the use of recycled materials, the GRS certification signifies the inclusion of recycled materials, with each stage of the supply chain independently verified—from the initial recycling phase to the final product. Certified organisations are required to adhere to social, environmental and chemical standards throughout.
