DESIGN VALUES

As an interior design partner in the hospitality industry, we understand better than anyone how important it is to create an attractive interior that radiates hospitality but also is functional. Your wishes and ideas are our key to the design.

A new hospitality interior is so much more than selecting furniture. It is the realization of a desired atmosphere where guests feel at home. At Kaja, we value this very much. We believe that a well-chosen interior plays a key role in the experience of atmosphere and taste. We look at the client's wishes and together we create an experience to remember for your guests.

EET- & WERKCAFÉ KLEURRIJK, NIJVERDAL

FROM CONCEPT UNTIL OPENING

Kaja is there for companies & institutions that have hospitality high on the agenda and are willing to invest in an appropriate interior to stimulate and facilitate the experience of their guests as best as possible.

Our focus sectors are:

- > HOSPITALITY
- > (HEALTH)CARE
- > RECREATION, SPORTS & LEISURE
- > OFFICE & CONFERENCE

From that one ultimate eye-catcher of a chair to a complete custom interior design. From a small restyle to a complete remodel. Furniture, design and realization.

For that, Kaja is the place to be.

YOUR PARTNER FOR THE HOSPITALITY INDUSTRY

We know the ins & outs of customization, have an extensive collection of quality indoor & outdoor furniture, are independent in terms of atmosphere, style & budget, take a full-service approach and have an extensive network of various specialists around us. And that is exactly what makes us a valuable interior design partner for other sectors in (or related to) the hospitality industry. Because making your guests feel at home is not only about creating a number of beautiful, functional or ergonomic pieces of furniture. It's all about feeling, pleasant guest experience, well thought-out routing, healthy choices and optimal ease of use. We call this combination 'guest-friendliness'. Whatever experience you want to give your guests, it's your choice. How you bring this experience to life in your environment is something we can help you with.

SUSTAINABLE Aware of human and materials

A RESPONSIBLE CHOICE

In today's society, sustainability and environmental awareness are of increasing importance, which also increases the focus on sustainable interior choices within the hospitality industry.

A sustainable interior begins with the choice of materials. Using recycled or reusable materials, such as wood, rattan, cardboard and metal avoids unnecessary pressure on natural resources. Saving energy is also an important aspect of sustainability. For example, our range of lighting mostly consists of rechargeable LED lamps. When compiling our collection, we try to take the environment into account as much as possible. In this way, both we and our clients can contribute to a responsible future.

HOUSEPITALITY IN HEALTHCARE

Designing a healthcare facility functionally smart, without sacrificing personal character and a pleasant atmosphere, is an art. Hospitality makes the difference here. We are convinced of that. Kaja approaches an optimal healthcare interior from a hospitality perspective with healthy hospitality and comfort as a starting point.

This is because we believe that the interior of a healthcare facility or residential environment can contribute positively to the well-being of residents. Whether for a short or long period of time, feeling "at home" is very important. Care interior design is more than considering practical use, functionality and durability. Comfort and style are equally important. We take all these facets into account and have the right experience to execute everything from A to Z.

VALENCIA DEVENTER

Restaurant Valencia in Deventer takes you to another world.

The whole environment breathes experience. The restaurant focuses on “summer vibes” all year round. They make sure you enter another world.

They bring outside in and let the sunny character of Valencia in Spain come to life in their own way in Deventer.

A TOUCH OF SPAIN IN THE PORT OF DEVENTER

Most notable in the interior is the nod to a bustling summer fair. Think of a carousel as a bar, a ferris wheel as a food elevator or a grab-and-go machine in the restroom. Not only mood creators, but these 'fair attractions' also create a lot of efficiency in the space. The furniture used for this project includes the Mera sofa and the Utah and Bergamo table bases.

STEFANIE AARNINKHOF
INTERIOR DESIGNER

DIRECTORS CHAIR **WOOD**

On the terrace you imagine yourself in Spanish spheres among the palm trees. Including the Ibiza terrace sofa in different versions, the personalized directors chair teak and the Enfiber marble-look table tops. Enjoy the mix between Dutch hospitality and Spanish charm as you relax overlooking the rippling water.

TERRACE SOFA **IBIZA 3/4 ROUND**

‘Striking, but stylish.’

“You know that feeling you get when you’re on vacation and you’re sitting with a drink watching the sunset? Or when you’re at a festival dancing and enjoying the sun go down? The feeling of the last sun rays of that day on your skin. This was the starting point of the interior design and atmosphere creation for me. All colors and materials were adapted accordingly. Natural hues, the colors of the sunset, natural materials such as wood, stone and concrete form the basis of the interior concept and moodboard for Valencia.”

‘Natural, rustic but atmospheric.’

Op Oost is all about conscious gastronomy. Connection, natural and sustainability were important keywords that formed the basis for the design. The challenge here was the interplay between the interior and the concept. Through the use of light tones, natural and robust materials, the interior seamlessly connects the overall concept: “Inspired by Nature”.

VIGGO AND VINNIE SOFA

The Viggo and Vinnie sofas are element sofas that are very stylish both freestanding and combined. The stock sofas are upholstered with a high-quality microfiber. This material is low in maintenance and very suitable for intensive and professional use. The sofa elements have a powder-coated metal frame. Because of the powder coating, the frame will last for years! These sofas are available in low and high seating with a seat height of 47 or 80 centimeters, respectively.
