cantarutti.net

Wood, design, made in Italy. These are the characteristics of a Cantarutti chair. Our family has been manufacturing wooden chairs since 1970, and for some time now we have been making them in a completely different way. Together with designers and creatives, we have introduced new ideas, traditions, materials, colours and fabrics, without losing our identity or the craftsmen's skills. We aim to manufacture well-made, affordable design chairs while working in a suitable way. By doing this, we are able to offer not only design and durability, but most importantly value.

Legno, design, made in Italy. Una sedia Cantarutti si riconosce da queste caratteristiche. Dal 1970 la nostra famiglia produce sedie in legno, e da qualche tempo lo facciamo in modo completamente diverso: insieme a designer e creativi, introducendo idee, tradizioni, materiali, colori e tessuti nuovi, senza perdere la nostra identità e la capacità artigianale che ci contraddistingue. Vogliamo realizzare sedie ben fatte e dal design accessibile, operando in modo sostenibile. Solo così possiamo offrire a chi ci sceglie design e durata, ma soprattutto valore.

Made in Italy

Our chairs are made in Italy and the entire manufacturing process is carried out in our factory. We have invested in state-of-art machinery and internalised a series of operations to give us greater control over the product and enable us to offer customers further quality assurance. All our chairs are CATAS certified for safety, strength and durability, while our models are covered by design patents to protect the ornamental design from being copied or forged.

Made in Italy

Le nostre sedie sono fatte in Italia e tutto il processo di produzione si svolge nella nostra sede. Abbiamo investito in macchinari all'avanguardia e internalizzato una serie di operazioni per avere un maggiore controllo sul prodotto e poter offrire ai nostri clienti una garanzia di qualità in più. Tutte le nostre sedie sono certificate CATAS per la sicurezza, la resistenza e la durata, mentre i modelli sono registrati con brevetto ornamentale, che tutela i disegni contro le copie e le contraffazioni.

Since the very beginning wood has been our element. We work with respect for the environment and use only wood from environmentally managed PEFC and FSC-certified forests.

Fin dall'inizio il legno è stato il nostro elemento. Per questo operiamo nel rispetto dell'ambiente, usando solo legno che proviene da foreste gestite in maniera sostenibile certificato PEFC e FSC.

Cantarutti presents its new collection of seats, created with the ambition to bring a recognisable and contemporary design into private and collective spaces. A new classic style based on Mediterranean culture and language, rewriting traditional forms in collaboration with Italian and international designers. Wood is maintained as our primary element. This material and our technical know-how are always in balance between craftsmanship and industrial production. Each development involving tactile sensations, materials, fabrics and unusual colours, merges into a new idea of a chair, something new, different and unexpected.

Cantarutti presenta la sua nuova collezione di sedute, realizzata con l'ambizione di portare in spazi privati e collettivi un'estetica riconoscibile e contemporanea. Una nuova classicità, che cerca nella cultura mediterranea il linguaggio per raccontarsi e trova nella collaborazione con designer italiani e internazionali le forme per riscrivere una tradizione. Al centro ci sono ancora il legno come materiale d'elezione e il saper fare, sempre in equilibrio tra artigianalità e produzione industriale. Tutto attorno, sensazioni tattili, materiali, tessuti e colori insoliti contaminano l'idea di sedia per creare qualcosa di nuovo e diverso, inaspettato.

En The Arco stool and chair collection takes its name from the curved shape of the backrest and is also available as a padded version. Simple, yet oozing with personality, the Arco chair is stackable, making it highly suitable for all contract uses. It La collezione Arco, composta da sedia e sgabello, prende il nome dalla forma curva dello schienale, disponibile anche in versione imbottita. Semplice ma dalla grande personalità, la sedia Arco è impilabile, caratteristica che la rende adatta a tutti gli ambiti del contract.

1.24.I Stackable chair, wooden seat and upholstered seat panel, upholstered back.

En Vicky is characterised by its comfortable and ergonomic backrest, made of flexible metal and wood. Also available in the version with only upholstered seat or fully upholstered, it is a fresh and playful chair because it allows you to combine colours and coverings. It Vicky si riconosce dallo schienale comodo ed ergonomico, realizzato in metallo flessibile e legno. Disponibile anche nella versione con solo sedile imbottito o completamente imbottita, è una sedia fresca e giocosa perché permette di combinare a piacere colori e rivestimenti.
