WERZALIT® 100 years of innovation!

Dear customers!

With the celebration of the **100th anniversary** of our group, 2023 is a memorable milestone in the history of **WERZALIT**.

During all these years in which you have placed **your trust** in us, we have never been so committed to **reserving you the best table** whether that be in **France**, in **Europe** or **around the world!**

And, indeed, it is around our **WERZALIT table** that is resolutely multi-functional, inventive, technological and connected, that we invite you once again, where we further cement our position as the best place around which to enjoy moments together.

For you, in this year 2023, we wanted to place service even more at the **centre of our offer:**

- We respond to **modern communication practices**, with the integrated Ipan Ipan solution allowing the charging of smartphones by wireless induction or by discreet USB connection.
- We expand our range of self-stabilizing bases by offering you a **sensational table base innovation** with **4 independent legs** working on all uneven surfaces: the **Contact X4 Crescendo**. In addition to its folding system, with its adjustable height it can also accommodate people with reduced mobility as well as be transformed from a sitting into a standing table.
- We now offer you **Top 30 Decors**, but also a **Top 15 Table Bases** and a **Top 10 Chairs**, all accompanied by a record delivery time: 5 working days.
- We are setting your establishments to music with the creation of **JAZZ**, our **new interior** range, sparkling, colourful, elegant, dedicated to interior design.
- We are growing our BISTRO range, the collection synonymous with Werzalit's reputation on all continents, thanks to 2 new types of brass: smooth and brushed, but also 6 optional surface structures for an unprecedented **sensory experience**.
- We are once again acting as a trendsetter on the market with **5 new audacious decors**.

Whether it is moulded laminate, wood-look moulded laminate, real wood or HPL, the Werzalit table is intended for all places and **all times of sharing!**

This year again, dear customers, we are honoured to invite you to our table!

THE ORIGINAL

HYGIENIC

Our table tops have been subjected to numerous **laboratory tests**, the results have shown **excellent resistance** to bacteria. More than 99.7% of bacteria are eliminated after a simple cleaning with water and / or soapy water, which allows easy **maintenance and safe use**.

MADE IN FRANCE

Werzalit SAS is **ISO 9001 certified**, a testament to our commitment to quality and customer service.

The quality of French production recognized worldwide, linked to **our know-how**, has enabled Werzalit to offer quality products on the market since 1923. The thoroughness and quality of the work of our employees at our production site located in Rochefort (on the French west coast) allow us to produce and deliver throughout **Europe** and the whole world, at any **time of the year**.

ENVIRONMENTALLY FRIENDLY

The manufacture of our products as well as the **choice of materials** from which they are made are always done with the greatest respect for nature. Our production is made from **100% recycled wood**. We optimise waste from the wood industry.

INDUSTRIAL

Our capacity as an industrialist and as main player in the market since 1923 allows us to display recognized production **quality as well as exemplary local service**. The WERZALIT CLASSIC moulded laminate tops are guaranteed for **5 years**, waterproof, and **UV resistant**. Ideal for indoor and outdoor use.

werzalit®
since 1923.

Beyond proudly claiming our status as a French manufacturer backed by a European group which is celebrating its 100th anniversary in 2023, WERZALIT® is a brand dedicated to the professional CHR sector (Cafés, Hotels, Restaurants) which shines throughout the world.

WERZALIT SAS is more than 60 years of passion and creativity in the manufacturing of moulded laminate table tops. It is also a large collection of quality products, neat finishes and constantly renewed styles, both for outdoor and indoor use.

It is also, thanks to a wide range of materials (HPL, imitation wood, solid wood, draff), table bases and chairs, that you can be assured of a practical and convivial table, with a focus on modernity, comfort and technical innovation.
